

Walking Footsteps

Words & Music: P. Mitch Knowles

Catch me, early morn'
It's time to feel the earth movin'
Flugelhorn, jump airborne
Tailspin with built in groovin'

Tango my charm, buy the farm
Springity do, is that you?
Tie up that shoe...

Nudge, wink, elbow
With strong notion called locomotion
Here's my M.O.
It's love potion, harmonic motion

Sunday in the park
It feels like the 1st of July (It feels like a first)
Turn about, check it out
It's such an incredible sunrise sky

Tiptoeing dance, happenstance
Nice to see you, that's our cue...
The other shoe!

Nudge, wink, elbow (Nudge, wink)
With strong notion called locomotion
So apropos (Keep that moving tempo)
It's love potion harmonic motion (Keep that moving tempo)
When you're walking with walking footsteps
When you're walking with walking footsteps
Strolling along with one foot that's closer...

Following walking footsteps
(When you're walking with walking footsteps)
Following walking footsteps
Following walking footsteps

Only footprints left behind
Without you it ain't my rhyme (Ain't my time)
Find the rhythm just try to unwind...
It's dire thin

We're all walkin' out of the wire
We're unlocking walkin' desire
(Just look ahead past the quagmire, a helping hand a pacifier)
We're all walking out of the wire
We're all walking out of the wire
We're all walking out of the wire
We're all walking out of barbed wire
We're all walking out of the wire
We're all walking out of the wire
(Just look ahead past the quagmire, a helping hand a pacifier)
